EDUCATION

Vishwakarma Institute of Technology
Bachelor of Technology in Information Technology
CGPA: 8.68

Nov 2022 – Jun 2026
Pune, Maharashtra

RELEVANT COURSEWORK

- Data Structures
- Operating System
- Database Management
- Object Oriented Programming
- Algorithms Analysis
- Machine Learning
- Artificial Intelligence
- Computer Network

EXPERIENCE

Kalyani Group

Pune, India

AI/ML Intern

July 2025 – July 2026

- Architected and deployed an **on-premise Data Platform** using open-source technologies — **Apache NiFi, Apache Superset, and PostgreSQL** — eliminating dependency on costly third-party SaaS solutions.
- Built and maintained **custom Docker images** for platform components, enabling reproducible deployments and seamless integration of new features across environments.
- Designed automated data workflows using **Apache NiFi**, reducing manual data processing time and improving pipeline reliability for cross-functional teams.
- Onboarded **4 internal clients** onto the platform, streamlining data ingestion and visualization pipelines, resulting in significant reduction in manual reporting efforts and operational costs.

PROJECTS

Dark Store Network Projection System | *Nextjs, Flask, Python, MongoDB* 🐙 GitHub

Mar 2025

- Clustered customer demand locations and generated Voronoi maps for store placement
- Calculated average rental and operational expenditure using economic data
- Exposed Flask API to return expenditure based on user coordinates and budget

X-ray Image Classifier | *Flask, CNN, HTML/CSS* 🐙 GitHub

Dec 2024

- Built a web app to classify chest X-ray images for multiple diseases
- Enabled image upload, real-time prediction, and downloadable visual reports
- Designed an intuitive UI with insights and classification results using heatmaps

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript, SQL, HTML/CSS

Frameworks: Node.js, Flask

Developer Tools: VS Code, PowerBI, Jupyter Notebook, Postman, Git, GitHub

Libraries: NumPy, Pandas, Matplotlib

ACHIEVEMENTS

- **2nd Runner-Up, Hackron'25 (Sponsored by Blinkit)** – Awarded for developing a City-Wide Dark Store Network Projection System; received a cash prize of Rs. 10,000.
- **Winner, Vodafone Idea Tech Marathon** – Built a global cybersecurity threat analysis dashboard using Power BI in 90 minutes; won Rs. 25,000.
- Recognized as a **3-Star Coder on** GeeksforGeeks, **2-Star on** CodeChef, and rated **1550+** on LeetCode.
